DETAILED ACTION

Response to Arguments

1. In papers filed on August 30, 2004, applicant's argued that the cited version of the Adobe Photoshop did not meet the priority date of August 13, 1996 and that Photoshop does not teach the limitations of the claim. Applicant's arguments were persuasive and rejection withdrawn. The earlier version of the Adobe Photoshop was also deficient in meeting the claim limitations.

Allowable Subject Matter

2. Claims 3, 4, 7 and 8 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art and the prior art of record, specifically Timmerman and Photoshop do not disclose recording the size of a full image and data representing the size of an effective image have been stored in mutually correlated form and aspect altering means responsive to an entered aspect alteration command for rewriting the data representing the size of the effective image, which data has been recorded on the recording medium, by new data representing an instructed size for the effective image.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
